DETAILED ACTION

Continued Prosecution Application

1. The request filed on 7/11/01 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09/141,443 is acceptable and a CPA has been established. An action on the CPA follows.

Election/Restrictions

2. This application contains claims directed to the following patentably distinct species of the claimed invention:

Claim 31 contains the following Markush groups:

- a. organic coatings, films, layers and residues;
- b. the group consisting of polymerized photoresists, paints, resins, single and multiplayer organic polymers, organo-metallic complexes, positive optical photo resist, negative optical photoresist, electron-beam photoresist, ion beam photoresist, ion implanted photoresist, and other hardened photo resists;
- c. the group consisting of polyimides, polyamide imides, fluorinated polyimides, poly(arylenethers), fluorinated poly(arylenethers), perflurinated alkylene oxides, parylene (N, C, D or F type), poly (phenylquin-oxalines), poly-naphthalene, poly-fluorinated naphthalene, benzocyclo butene, and amorphous fluoropolymers;
- c. the group consisting of semiconductor devices, semiconductor wafers, liquid crystal display devices, flat panel displays, printed circuit boards, magnetic read/write heads and thin-film read/write heads.

Art Unit: 1746

The claim also recite that the subjecting steps (b) and (e) could comprise chemical or physical treatment.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for the every Markush group and elect between chemical or physical treatments for every of the steps (b) and (e) for prosecution on the merits to which the claims shall be restricted.

Further, if the physical treatment is elected the election of a single disclosed species for the physical treatment is required. Further, if the chemical treatment is elected, the election of a single disclosed species for the chemical treatment is required. Further, election of a single species is required for an additional treatment during the solvent rinse between megasonic/ultrasonic energy, heat, UV radiation and laser energy. Further, election of a single species is required for an additional treatment during step (b) between chemically active process gases and vapors, chemically inert process gases, vaporized solvents, heat, UV radiation, and laser energy.

3. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

Art Unit: 1746

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 1746

remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
